Purpose

This document is intended to provide a comprehensive policy reference for the Divisions and Sections of the Department of Public Safety as it relates to travel and subsistence for official state business and related activities including meetings and conferences. This policy incorporates state and federal regulations related to travel reimbursement rates and subsistence allowances and shall be consistently applied in conjunction with the Office of State Budget and Management (OSBM) policies.

General

- A. Department of Public Safety employees may have their travel expenses reimbursed by the Department subject to limitations. Approved travel shall be advanced or reimbursed contingent upon the availability of funds. An employee traveling on official state business is expected to exercise the same care in incurring expenses that a prudent person would exercise if traveling on personal business and expending personal funds. Excess costs, round-about routes, delays, or luxury accommodations and services unnecessary, unjustified, or for the convenience or personal preference of the employee in the performance of official state business are prohibited. Employees will be responsible for the unauthorized costs and any additional expenses incurred for personal preference or convenience.
- B. Prior written authorization is required for all anticipated reimbursable travel and is accomplished through use of the CNTR 001 – Travel Authorization Form. Prior written approval by the Secretary of the Department of Public Safety or his designee must be obtained in order to qualify for reimbursement for overnight stays. Section/Location Heads have been designated by the Secretary to approve travel, including overnight travel and excess lodging, unless the travel is out-of-state or out-of-country. Any out-of-state travel must have prior approval of the Division Head as designated by the Secretary. Out-of-country travel requires prior approval from the Secretary. Form CNTR 001 is used to show prior-approval of travel. To allow adequate time for review and processing, Form CNTR 001 and supporting documentation shall be submitted at least two weeks before the travel period begins. If air travel is required, Form CNTR 001 shall be completed at least thirty (30) days prior to the travel dates, unless an exception has been approved by the Section/Location Head.
- C. Non travel expenses submitted on Form CNTR 001 under other expenses shall be limited in nature and to what business necessity dictates. These expenditures shall be limited to emergencies or non-recurring expenses. These expenses must be approved by the Section/Location Head. Justification shall be attached for expenditures for which the employee is requesting reimbursement on Form CNTR 003 (Reimbursement of Travel and Other Expenses Incurred in the Discharge of Official Duty). If additional

justification is needed and requested, Form CNTR 003 shall not be paid until the additional justification is received.

- D. Refer to the DPS Office of Staff Development and Training (OSDT) policies for travel related to training. This does not apply to training for law enforcement officers nor emergency management employees.
- E. Travel is authorized for first responders in the event of natural or man-made disasters. Excess lodging is authorized during the early stages of the disaster. However, lodging within allowable state rates should be pursued as early as possible after the disaster has occurred.
- F. Travel Expenditures – The following guidelines should be used in determining approval for travel expenditures:
 - 1. The travel is entirely related to state business.
 - 2. The travel is the most practical way to conduct state business as opposed to a letter, telephone call, etc.
 - 3. Reasonable efforts have been made to keep the cost within statutory levels and to keep the number of state employees traveling to a minimum.
 - 4. Travel costs are within budgeted travel line items.
 - 5. No excess travel subsistence may be granted for internal departmental meetings, conferences, seminars, etc., and such meeting must be held in state facilities when available.

Travel Allowance – Transportation

“It is the intent of the State that state employee travel shall be conducted in the most efficient manner and at the lowest and most reasonable cost to the State.” (OSMB Travel Policy 5.1.26)

- A. Scope: Includes personal automobile, taxi, car service, mobile phone ordered car service, shuttles, bus, train, airplane, motor pool charges, auto rental, tolls and parking fees. All travel expenses must be incurred by state employees or other eligible travelers in conducting official state business in order to be eligible for reimbursement.
- B. All Division/Section Heads must designate at least one individual to be responsible for making airline arrangements. Arrangements must be made using the most economical means possible. At least three (3) rates should be obtained and documented to support the use of the lowest rate. Form CNTR 001 shall be completed at least thirty (30) days prior to travel dates when requesting airline tickets unless an exception has been granted by the Section/Location. Every effort shall be made to make airline reservations early enough to take advantage of lower airfares.

C. When travel by automobile is determined to be feasible and a state-owned vehicle is available, staff shall use the state-owned vehicle instead of a private vehicle. Each Section/Location Head must determine whether or not state vehicles are available. Each Section/Location Head must periodically review employee duty stations to determine cost effectiveness of having a state vehicle permanently assigned to their location.

D. Transportation by Common Carrier

Reimbursement for air, rail, or bus fare is limited to actual coach fare, substantiated by receipt. Reimbursement for fees for check-in, seat assignments, and baggage is limited to actual costs substantiated by receipt.

1. Transportation by International Flights

Employees traveling internationally may be reimbursed actual business class fare substantiated by receipt with prior approval of the Secretary of the Department of Public Safety.

2. Penalties and Charges Resulting From Cancellations

Penalties and charges resulting from the cancellation of airline reservations (or other travel reservations) shall be the Department's obligation if the employee's travel has been approved in advance and the cancellation or change is made at the direction of and for the convenience of the Department. If the cancellation or change is made for the personal benefit of the employee, it shall be the employee's obligation to pay the penalties and charges. However, in the event of accidents, serious illness or death of the employee or within the employee's immediate family as defined in, 25 NCAC 01E .0317, or other critical circumstances beyond the control of the employee, the Department may pay the penalties and charges. (OSBM Travel Policy 5.1.9)

3. Super Saver Rates

When traveling by common carrier to conduct official state business, employees traveling to their destination earlier than necessary and/or delaying their return to avail the State of reduced transportation rates, may be reimbursed subsistence for additional travel days, if in the opinion of the Section/Location Head, the amount saved in transportation costs due to the early and/or delayed travel is greater than the amount expended in additional subsistence. For example, when the reduced airfare rates require staying overnight one Saturday night, to be eligible for reimbursement, the state employee must stay overnight on the Saturday closest to the first or last day of official state business to which the employee is attending. With

sufficient justification, the Section/Location Head is authorized to make an exception to this requirement prior to travel commencing.

4. Frequent Flyer Miles and Other Benefits

[N.C. Gen. Stat. §143-58.1](#) and North Carolina Administrative Code ([01 NCAC 05B.1510](#)) prohibit the use of public purchasing power for private gain. Any benefits that accrue to individuals as a result of travel at state expense (e.g., frequent flyer miles, coupons, or certificates) are the property of the State of North Carolina. Frequent flyer miles accumulated by an individual state employee during previous state business trips should, to the extent possible, be used by the state employee accumulating the frequent flyer miles while traveling on future state business trips.

5. Coupons or Certificates for Reduced Air Fare

Coupons or certificates for reduced air fare, if acquired by a state employee while traveling on state business at state expense, are the property of the State and should be used, to the extent possible, by the state employee on future state business trips.

E. Transportation by Personal Vehicle

1. Approval – Use of a personal vehicle requires prior approval from the Section/Location Head. Section/Location Heads shall consider whether it is in “the best interest of the State” when approving the use of a personal vehicle for State business travel, including factors such as:

- a) Maximizing the use of state-owned vehicles and state resources;
- b) Making use of State term contracts for short-term rentals (State Term Contract 975B Vehicle Rental Services); and
- c) Considering employee’s special needs. For example, if an employee is handicapped and requires specialized equipment for the vehicle.

2. Calculation of Actual Mileage – Mileage is measured from the closer of duty station or point of departure to destination (and return).

3. Rate of Reimbursement

If a state employee has been approved to drive his/her personal vehicle for state business purposes, the employee shall be reimbursed for actual mileage. The employee shall be reimbursed the *business standard mileage rate* set by the Internal Revenue Service (**54.5 cents per mile, beginning January 1, 2018**) when the entire trip does not exceed 100 miles. When an employee has been approved to

drive their personal vehicle for business travel and the trip exceeds 100 miles, the employee shall be reimbursed a flat rate of **33 cents per mile**. (OSBM Travel Policy 5.1.26)

APPLICATION EXAMPLE:

Round trip 100 miles or less:

If an employee has been approved to drive their personal vehicle and they are traveling from Chapel Hill to Raleigh (approximately 30 miles one way or 60 miles round trip), that employee will be allowed actual mileage reimbursement at the IRS business standard mileage rate (54.5 cents per mile as of January 1, 2018). The allowable reimbursement would be \$32.70 (60 miles at 54.5 cents per mile).

Round trip exceeding 100 miles:

If an employee has been approved to drive their personal vehicle and they are traveling from Raleigh to Greensboro (approximately 75 miles one way or 150 miles round trip), that employee will be reimbursed at the lower flat rate of 33 cents per mile for the whole trip. The allowable reimbursement would be \$49.50 (150 miles at 33 cents per mile).

Note: Previously, the employee was allowed the IRS rate for the first 100 miles per day of travel and any mileage over 100 miles was reimbursed at a lower rate. The new method to calculate mileage reimbursement applies a flat rate based on the mileage for the entire trip and also does not take into account average mile per day of travel. The calculation is simply based on mileage for the whole trip.

4. Parking Fees and Tolls – Parking fees and tolls are reimbursable when supported by receipts. These shall be reported under the “Transportation” column on Form CNTR 003.
5. Fines for Traffic and Parking Violations – Fines for traffic and parking violations are the responsibility of the state employee.
6. Other Uses – Prudent use of a personal vehicle to obtain meals while in travel status may be eligible for reimbursement. Use of private vehicle for private purposes or entertainment while off-duty at the travel destination is not reimbursable.
7. The Department does not provide automotive insurance coverage for personal vehicles driven on state business.

F. Transportation by a Rental Vehicle

When State-owned resources are not available, rental vehicles may be used, however, not at state expense solely for the convenience or personal preference of the employee. A receipt is necessary for reimbursement. No reimbursement will be made for rental insurance purchased because state employees are covered under the state's auto insurance program for rental (not private) vehicles. Use of a rental vehicle must be pre-approved using Form CNTR 001. Reimbursement expense shall be recorded under the "Transportation" column. Rates for rental vehicles vary substantially. Often a greatly reduced rate can be obtained if the rental is arranged in advance. Whenever possible, rental vehicle rates should be investigated and arranged in advance in order to minimize costs. State Term Contract 975B – Vehicle Rental Services provides rental vehicles to state employees on state business at discounted rates and shall be consulted and utilized if available. Unless prior approval has been obtained from the Secretary or the division designee, the employee shall bear the difference in cost when renting a vehicle from a class that exceeds the cost of a standard vehicle under the State's term contract (Contract 975B).

G. Transportation by Chartered Aircraft

The Secretary of the Department of Public Safety may approve the use of charter aircraft by state employees on official state business, provided the following determinations are made and put in writing:

- a) A state aircraft is not available or not appropriate for the size of the party traveling or the destination airport;
- b) The use of a charter flight is more economical than a commercial flight; or
- c) The use of a charter flight is necessary because of unusual circumstances.

H. Transportation by State Vehicle

1. State-Owned Vehicles – State-owned vehicles shall be used for official state business only. [N.C. Gen. Stat. § 14-247](#) prohibits the private use of publicly owned vehicles. "It shall be unlawful for any officer, agent or employee of the State of North Carolina, or of any county or of any institution or agency of the state, to use for any private purpose whatsoever any motor vehicle of any type or description whatsoever belonging to the state, or to any county, or to any institution or agency of the state."

Procedures for obtaining and using state vehicles owned by the Division of Motor Fleet Management (Department of Administration) are set out in the [Rules and Regulations](#) provided by that division.

<https://ncadmin.nc.gov/government-agencies/motor-fleet-vehicles/regulations-manual>

DPS Controller Policy, Requirements, and Procedures Document Travel, Transportation Allowance, and Reimbursement

2. Permanently assigned vehicles - Individuals assigned a state-owned vehicle, shall not use such vehicle for commuting or other personal use. Exceptions may be requested through the chain of command to the Section head.

The Section head will make recommendations for an exception to the Secretary. The Secretary will personally approve all exception requests. In addition, if the vehicle is a Motor Fleet Management (MFM) owned vehicle, MFM must also approve the exception request.

- a. Payroll Deduction – If approved for commuting purposes, the employee shall reimburse the State for mileage. Reimbursement shall be made through payroll deduction. The amount of reimbursement shall approximate the benefit derived from use of the vehicle in accordance with Internal Revenue Service regulations at a rate established by MFM. MFM rates for various vehicle classes are published and updated by MFM and may be viewed at www.mfm.gov. The reimbursement shall be calculated based on 20 working days per month.

For example, an employee is authorized to use a Chevrolet Impala as a take-home car. The employee lives 20 miles from his primary duty station. MFM rates indicate the cost per mile for an Impala is .27 per mile.

The employee's monthly deduction would be calculated as 40 (round trip miles) x .27 x 20 = \$216.00.

- b. Use of Public Safety vehicle for commuting – The provisions of this rule do not apply to clearly marked police and fire vehicles or unmarked law-enforcement vehicles that are used in undercover work and are operated by full-time sworn law enforcement officers whose primary duties include carrying a firearm, executing search warrants and making arrests, or other vehicles specifically exempted by N.C. Gen. Stat. 143-341(8) i.7a.
3. Hitchhikers - Hitchhikers are not permitted in state-owned vehicles.
 4. Non-State Employee Riders - Non-state employees may accompany state employees in state-owned vehicles when they have a business interest in the purpose of the trip and their presence is related to state business. Spouses and children of state employees may accompany them in state-owned vehicles if ample space is available and all travel is strictly for official state business.
 5. State Vehicle Use at Destination - At the employee's destination, state vehicles may be used prudently for travel to obtain meals and for de-minimis personal purposes only. Examples of de-minimis personal travel would include stopping for lunch, picking up a prescription at a pharmacy and related errands. No common carriers or public transportation fares are reimbursable on a trip on which an employee uses a

state vehicle, unless it is shown that such transportation was more economical in a particular situation.

6. State Vehicle and Vacation - State vehicles shall not be used while an employee is in vacation status.
7. Commuting - No reimbursement shall be made for the use of a personal car in commuting from an employee's home to his duty station.

NOTE: No mileage reimbursement is allowed to employees on "call back" status.

8. Home as Duty Station – "Duty station" is defined as the location where the employee is assigned. The designation of an employee's home as the duty station requires the approval of the Secretary or designee. In determining whether the employee's home should be his/her duty station, the best fiscal interests of the Department shall be considered. The home duty designation shall be determined by the position rather than by the employee or their circumstances in the particular position. Typically, employees with special skills who may be required to travel state-wide and who do not have a fixed office location are those considered for this designation. Requests shall be sent to the Controller with justification attached prior to the designation of home duty station.

I. Travel to/from Airport at Employee's Duty Station

Reimbursement for travel between the employee's duty station or home (whichever is less) and the nearest airline terminal (or train/bus station if applicable) and for parking may be made under the following circumstances. For travel by:

1. Taxi, car service, mobile phone ordered car service, or Airport Shuttle – An employee may request reimbursement for actual travel costs when a receipt is provided.
2. Private vehicle – When using a private vehicle, the employee may be reimbursed the business standard mileage (set by the Internal Revenue Service) per mile for a maximum of two round trips. No parking charges shall be reimbursed if the employee claims two round trips. If the employee requests reimbursement for only one round trip, the employee may be reimbursed for airport parking charges when a receipt is provided.
3. Use of Public Transportation – The employee may receive reimbursement for public transportation. In lieu of using a taxi or airport shuttle, employees may receive \$5 without receipts for each one-way trip (i.e. from the employee's duty station (home) to or from the airport). The employee may choose instead to be reimbursed for the actual cost of the travel with the submission of receipts.

J. Travel to/from Airport at Employee's Destination

Reimbursement for travel to and from the airline terminal at the employee's destination may be made where travel is via economical mode available as listed below:

1. Taxi, car service, mobile phone ordered car service, or Airport Shuttle Service – An employee may request reimbursement for actual travel costs when a receipt is provided.
2. Rental Vehicles – Rental vehicles may be used with the prior approval of the Section/Location Head. However, rental vehicles may not be used for the sole convenience of the employee (receipt required).
3. Use of Public Transportation – The employee may receive reimbursement for public transportation. In lieu of using a taxi, car service, mobile phone ordered car service, or airport shuttle, employees may receive \$5 without receipts for each one-way trip (i.e. to and from the airport to the hotel or meeting place). The employee may choose instead to be reimbursed for the actual cost of the travel with the submission of receipts.

K. Travel Involving Trips Other than to and from the Airport

The actual cost of taxi and shuttle service fares may be reimbursed when required for travel on official state business. The reimbursement request must be accompanied by receipts.

NOTE: Common carrier or public transportation fares are not reimbursable on a trip on which an employee uses a state-owned vehicle, unless such transportation is more economical in a particular situation.

L. Authorization for Out-of-Country Travel

All out-of-country travel must be authorized by the Secretary. Out-of-country travel status begins when the employee leaves the country and remains in effect until the employee returns to the country. If the employee and other qualified official travelers use hotel and meal facilities located outside North Carolina, but within the continental United States, immediately prior to and upon returning from out-of-country travel but during the same travel period, out-of-state subsistence rates shall apply.

M. Passports

Reimbursement for the cost incurred in obtaining or renewing a passport may be made to an employee, who, in the regular course of his or her duties, is required to travel out-

of-country in the furtherance of official State business. Passport expenses are chargeable to the same fund that supports the employee's trip.

Subsistence Allowance (Meals and Lodgings)

Subsistence is an allowance related to lodging and meal costs (including gratuities). N.C. Gen. Stat. §138-6 provides for allowances to be paid in amounts or rates specified. For purposes of determining eligibility for allowances, travel status means being away from the employee's normal duty station or home overnight, at a destination that is at least 35 miles from the employee's regularly assigned duty station, and, while traveling, the employee must be acting in his/her official capacity as required by his/her work activities. Exceptions may be made by application to the Secretary.

A. Subsistence Rates

The maximum allowable statutory rate (N.C. Gen. Stat. §138.6(a)(3)) for meals and lodging is:

In-State	\$109.50
Out-of-State	\$125.10

Payment of sales tax, lodging tax, local tax, or service fees applied to the cost of lodging are to be paid in addition to the daily subsistence amount. This means that if the motel bill is \$71.20 before taxes and \$7.00 is added to the bill for taxes, for a total motel bill of \$78.20, the \$7.00 would not be considered excess and would be paid in addition to the allowable subsistence. In this example, up to \$116.50 could be paid if the employee qualified for all three meals (in-state travel).

The following schedule shall be used for reporting allowable subsistence expenses incurred while traveling on official state business:

	<u>In-State</u>	<u>Out-of-state</u>
Breakfast	\$ 8.40	\$ 8.40
Lunch	11.00	11.00
Dinner	18.90	21.60
Lodging (actual, up to)	<u>71.20</u>	<u>84.10</u>
Total	<u>\$109.50</u>	<u>\$125.10</u>

Out-of-state travel status begins the day the employee leaves the state and remains in effect through the day the employee returns to the state. However, in-state allowances and reimbursement rates apply when employees and other qualified official travelers use hotels and meal facilities located in North Carolina immediately prior to and returning from out-of-state travel during the travel period.

When an employee stays or has meals in a state-operated facility and the subsistence (meals and/or lodging) charge is less than the established rate, the maximum amount reimbursed will be the amount charged. Lodging expense is not reimbursable in an employee's home town or city. Allowances cannot be paid to employees for meals if travel does not involve an overnight stay.

B. Authorization

Prior written authorization by the Secretary of the Department of Public Safety or his designee is required for all anticipated reimbursable travel and is accomplished by use of Form CNTR 001. Section/Location Heads, as designated by the Secretary, are authorized to approve travel, including overnight travel and excess lodging for travel costs for in-state travel. Prior-approval must be obtained by completing and submitting Form CNTR 001, and when applicable, the Office of Staff Development and Training (OSDT) training approval with appropriate signatures.

C. Reimbursement

1. Each employee is responsible for his or her own request for reimbursement. Each employee shall personally sign his/her own CNTR 003 (Reimbursement of Travel and Other Expenses Incurred in the Discharge of Official Duty), as each employee is "certifying under penalties of perjury that the statements are true and accurate." The employee cannot delegate his or her signing authority to another individual.
2. Valid Lodging Reimbursement Requests
 - a) 35 Mile Minimum – The travel must involve a travel destination located at least 35 miles from the employee's regularly assigned duty station or home, whichever is less.
 - b) Requests Filed within 30 Days – Pursuant to N.C. Gen. Stat. §138-6(c), requests for reimbursement shall be filed within 30 days after the travel period ends for which reimbursement is being requested. Travel period is defined as the calendar month during which the travel occurred.
 - c) Specific Lodging Dates – Specific dates of lodging must be listed on the reimbursement request, and substantiated by a receipt from a commercial lodging establishment.

NOTE: Confirmation from the internet, along with a detailed statement from a credit card showing payment, is NOT considered sufficient documentation for a valid lodging reimbursement request. The employee shall obtain a detailed receipt from the lodging establishment that itemizes the lodging dates and charges. It is the responsibility of the employee to request the receipt from the motel/hotel if it is not automatically provided.

- d) Apartment Buildings or Third Party Lodging – Reimbursement for lodging in an establishment that is being rented out by a third party or an establishment treated as an apartment building by state or local law or regulation is allowed only if the agency can document that per day lodging rates will cost less than standard in-state or out-of-state lodging rates.. Approved third party lodging requests must include evidence of savings to the State, such as documentation contained in travel or accounts payable records of rates and comparisons. Third party lodging agreements are not allowed among family members or where such agreements or payments create a financial conflict of interest to the traveling employee or other agency managers or employees. Third party lodging may include, yet is not limited to, online website house or room rental services.

In each case where third party lodging is being considered, the applicant must provide their budget officer all details regarding the arrangement, including the amount to be charged, the length of stay, projected cost savings compared to standard lodging rates, and contact information. In order to receive reimbursement for third party lodging, a signed rental agreement, or reservation and receipt, and documentation of prior approval from the DPS Budget Office must be provided.

- e) Requests for reimbursement shall be routed to the DPS Controller's Office for payment.

3. Tips and Gratuity

Reimbursable gratuity or tips must be considered reasonable for items that are not already covered under subsistence. Excessive tips will not be reimbursed. A reasonable tip would be one that a prudent person would give if traveling or conducting personal business and expending personal funds.

For further guidance, the following information is provided when calculating a tip:

- a) Airports: Baggage Handling/Skycaps = no more than \$2 per bag; Shuttle Drivers = no more than \$2 per bag.
- b) Parking/Auto Related: Valets = \$2 per car when collecting the car; Taxi or car service drivers = no more than \$5 per trip.

NOTE: Tips must be documented on Form CNTR 003 as to amount, date and purpose of tip (i.e. taxi driver, baggage handler, etc.) in order to be reimbursed.

- c) Baggage Handling Fees – The Department will pay the fee charged by an airline for handling up to one (1) bag for an employee while on official State travel. Receipts are required for reimbursement.

NOTE: In cases where an employee travels with extra materials required for business purposes, causing the employee to carry more than one bag, the Department will reimburse the additional baggage handling fees. Documentation must be attached to Form CNTR 003, including the type of business material transported (i.e. equipment, hand-outs, etc.). Documentation and receipts are required for reimbursement.

4. Meals

In order to be reimbursed for meals, an employee must receive prior written approval from Section/Location Head and be in “overnight travel status.”

Each employee is responsible for his or her own request for reimbursement. Tips for meals are included in the meal allowance rates. Each meal reimbursement rate must be listed on the reimbursement request. Times of departure and arrival must also be listed on the reimbursement request. While the cost of meals included in other related activities (e.g., registration fees, conference costs, hotel registration, etc.) may not be duplicated in reimbursement requests, an employee is entitled to a breakfast allowance even if their lodging establishment offers a free continental breakfast.

D. Excess Lodging

Excess lodging must be approved in advance by the Section/Location Head. Prior approval is indicated by use of Form CNTR 001. Excess lodging is allowed when the employee is in a high cost area and unable to secure lodging within the current allowance, or when the employee submits in writing an opinion that his/her personal safety or security is unattainable within the current allowance. Excess lodging authorization is not allowed for reason of convenience or personal preference for the employee.

An employee may exceed the lodging subsistence ceiling without approval from the Section/Location Head provided that the total lodging and the food reimbursement does not exceed the maximum total daily subsistence allowance.

Excess lodging is authorized for first responders during the early stages of a disaster. However, lodging within allowable state rates should be pursued as early as possible after the disaster has occurred.

E. Penalties and Charges Resulting From Cancellations

Travel Policies for State Officials

A. Political Functions

State officials, both elected and appointed, sometimes attend political functions or meetings. The following policies are intended to be guidelines for the payment from state funds for travel and subsistence costs surrounding the attendance of state public officials at political functions or meetings.

B. Travel Related to Political Functions

No state funds may be used to pay travel and/or subsistence costs for a state official while attending a political function or meeting. State employees and members of all state boards, commissions, committees, and councils whose salaries or any portion of whose salaries are paid from state funds shall receive no per diem compensation, that would be in addition to their salaries or hourly pay rates that are funded from state funds for their services.

Internal Revenue Service (IRS) audit responses issued in 2016 and 2017 have for certain boards concluded that these stipends or per diem compensation payments should be treated as employee compensation for purposes of federal and state withholding tax and FICA tax. As a result, boards, commissions, committees and councils should consult their respective General Counsel or tax attorney to ensure compliance with IRS employee compensation requirements.

B. Subsistence for Non-State Employees

Subsistence for members of state boards, councils, commissions, or committees is the same as those for state employees, provided that meals are not furnished. Meals may be furnished if preplanned as part of the meeting for the entire board, commission, committee or council while on official state business. regulations, such as prospective professional employees, public school and community college employees, students on official state business, service contractors, hourly temporary employees, and attendants of handicapped state employees traveling on official state business (provided advance approval is obtained).

Non-state employees traveling on official state business whose expenses are paid by the State are subject to these regulations, including statutory subsistence allowances, to the same extent as are state employees. These expenses are limited to transportation and subsistence for three days (five days if one is a Saturday) at the in-state rate. Excess lodging expense may be approved by the Division Head as designated by the Secretary of Public Safety.

C. If grant conditions allow, meals may be provided to state employees even if a registration fee was not charged. The Department must have documentation of the conditions. The cost of meals must not exceed allowable state rates for meals. The employee may not request reimbursement for the meal. Section/Location Heads shall ensure that reimbursement is not claimed for meals by employees when the meal has been paid by other means.

The Division/Section sponsoring the conference shall be responsible for keeping a list of all participants who have paid the registration fee. A sign-in list of these participants shall be used at the conference. It shall be the responsibility of the Division/Section to ensure that any write-ins on the day of the conference have paid the registration fee. The roster shall also identify the State Agency of each participant. An electronic receipt is acceptable if registration is made on-line. A copy of the registration form is also required. When a receipt or invoice is not available for employee reimbursement, the canceled check or money order shall be required as proof of payment, along with a copy of the registration form.

Travel Advance

Permanent state employees who travel on state business may be issued a travel advance in order that personal funds will not be required. Form CNTR 002 (Employee Advance Request) shall be used when requesting travel advances and shall be submitted with an approved Form CNTR 001 (Travel Authorization). Adequate records shall be maintained to support the travel advance. Eligibility for advances and reporting requirements are as follows:

- A. State Issued Credit Cards – State employees who have been issued state credit cards for travel purposes should not be issued travel advances unless there is substantiated justification.
- B. Travel Advances for Occasional Travel
 - 1. Employees who travel occasionally on state business may request a travel advance in an amount not to exceed the estimated cost of the trip when travel is for at least a minimum of two (2) nights. Advance requests should be submitted three weeks prior to travel date, but an advance may not be issued more than 5 working days prior to the date of departure.
 - 2. Travel advances may be provided to employees for one night out-of-state extradition trips when reasonable advance notice is given.
 - 3. All advances must be deducted from the travel expense reimbursement requests no later than 30 days after the travel period or June 30, or earlier if required by the DPS Controller's Office whichever comes first. In the event the travel advance exceeds the actual travel expenses, the employee must immediately repay any difference. Failure to repay the travel advance in full within the mandatory period will result in garnishment of wages.

- C. Travel Advances for Regularly Scheduled Travel

For employees who travel each month, an annual advance of funds equal to the average monthly expense may be made. All reimbursement requests shall be filed and paid monthly for incurred expenses. Reimbursement requests must be submitted to the Controller's Office no later than 30 days after the travel period. Travel period is defined as the calendar month during which the travel occurred. The advance must be repaid as of June 30 annually or earlier if required by the DPS Controller's Office. Failure to repay the travel advance in full within the mandatory period will result in garnishment of wages. If it is determined that the monthly reimbursement has averaged less than the annual advancement, the advance must be reduced to the newly established amount.

NOTE: Unspent annual advances must be returned to the DPS Controller's Office by the end of the fiscal year, or upon termination of employment, whichever comes first.

D. American Express Cards

The State has authorized the use of American Express credit cards for employees during travel on official state business. These cards are distributed at the discretion of the Section Head. Employees will be responsible for unauthorized costs and any additional expenses incurred for personal preference or convenience. Employee misuse of state-issued credit cards is grounds for revocation of the card and/or disciplinary action up to and including dismissal.

Reimbursement

- A. Form CNTR 003 (Reimbursement of Travel and Other Expense Incurred in the Discharge of Official Duty), along with necessary receipts for lodging and other expenses must be submitted to the DPS Controller's Office within 30 days of the end of the travel period. Copies of Forms CNTR 003 and receipts shall be kept in a central file at the Section/Location for audit purposes for a period of one year or longer if a specific regulation requires a different retention period such as with grants.

Travel Period is defined as the calendar month during which the travel occurred. The room rate must be clearly documented on all lodging establishment receipts. Receipts must be itemized showing taxes and other charges separately. Receipts must be submitted for all employee and contractual personnel expenses incurred, excluding meals and certain other expenses specifically identified. If reimbursement for an inmate

or juvenile resident is claimed, a receipt for the expense, including meals, must be attached, and the inmate/juvenile resident's name and number/ID must be documented.

Each employee is responsible for his or her own request for reimbursement. Each employee shall personally sign his or her own Form CNTR 003, as (s)he is "certifying under penalties of perjury that the statements are true and accurate." The employee cannot delegate his or her signing authority to another individual. In addition, Forms CNTR 003 must be signed by the employee's supervisor, indicating that travel expenses have been approved, in order for the expense to be authorized.

- B. Direct deposit is the most efficient way to receive reimbursement for both travel reimbursement and travel advances. To receive reimbursement by direct deposit, Form CNTR 004 (Direct Deposit Reimbursement) shall be completed for the first submission of the travel reimbursement/advance request. Form CNTR 004 does not need to be submitted again unless the employee requests a change for a new bank, new e-mail address, or new fax number. Should information change (i.e. new bank, different email address, new fax number), a new Form CNTR 004 shall be submitted prior to the next request for reimbursement/advance.

Exceptions

Any exceptions to the rules and regulations as herein stated in the Department of Public Safety, Fiscal Policy and Procedures Manual, except those expressly delegated, must be approved by the Office of State Budget and Management.
